SUSPECT HE IS BEACH SLAYER

Salisbury Beach, June 10.—A barber answering the description of the man accused of the murder of Stella Kale on the beach here, was arrested today in Nulma, N. H., and taken to Lawrence for inspection by persons who knew George Taylor, the slayer suspect.

Unkempt and showing plainly that he had tramped many miles over the highways, the arrested man applied for work at the Central barbershop in Main street, that city. The owner notified the police and he was taken into custody.

MORE THAN 500,000 IN WASHINGTON TO CHEER LINDBERGH TOMORROW

U. S. S. Memphis, June 10 (By Radio to I. N. S.)—The Memphis bears homeward bound today to greet America's returning hero, Colonel Charles A. Lindbergh.

Sixty airplanes in battle formation, and a fleet of thirty vessels, including a half dozen destroyers, sailed out to greet the cruiser Memphis fifty miles at sea.

The great craft from a courier to escort the Memphis to the Virginia Capes, where this afternoon Lindbergh's plane will land for the first time since he left his spool of flight to Berlin.

The aircraft will return to Hampton Roads late today and prepare for a new formation tomorrow, in which the United States navy, marine corps and air mail planes will escort the Memphis up the Potomac.

Washington's population of half a million and more than 100,000 visitors, pouring into the city by airplane and railroad routes will cheer Lindbergh tomorrow as the nation's official welcome.

SISTER DIES NINE DAYS AFTER 'LIZZIE' BORDEN

BOSTON, FRIDAY, JUNE 10, 1927

BLONDE 'TILLIE' GAGS RAFFLES CONFESSION

New York, June 10.—At least two jewel robberies a month, always carried out in the dark of the moon, is the schedule confessed to by Arthur Barry, alias "Tillie," of Worcester, Mass., who is under arrest, here.

Barry as a Raffles has all the equipment of a prima donna. He has freely confessed to an amazing list of daring jewel robberies, in which he declares his co-worker was "Boston Billy" Williams, who still is at large.

The temperance came to the surface today when the man-and-wife child confessed burglar with his arm crookedly about the waist of his sweetheart, Mrs. Anna Blake, refused to continue a tour of the homes and hotels he had robbed, because a petite young stenographer was taking a stenographic copy of all his side remarks and comments.

Barry had promised to lead the detectives to all the Long Island homes he said he and "Boston Billy" had looted in a "gentlemanly manner" during the last three years.

Barry begged this promise with a list of demands. He demanded \$500,000 on the spot in a high-speed touring car. He also demanded that Mrs. Blake be permitted to sit by his side on the trip.

Detectives readily agreed. Mrs. Blake was placed in the machine and for a few moments detectives used shields as they witnessed a law making scene.

Then, with his arm crookedly about Mrs. Blake's waist the "jewel thief" and the party set out.

MISS DIANA KANE

Sister of Lois Wilson reported engaged to George Fitzmaurice, motion picture director in Los Angeles.

LOIS WILSON'S SISTER TO WED FITZMAURICE

By LOUELLA G. PARSONS.
Los Angeles, June 9.—The beautiful new home in Beverly Hills of George Fitzmaurice, well-known motion picture director, is to have a bride.

At least a well authenticated rumor strongly indicates that he and Diana Kane, the younger sister of Lois Wilson, will be married before the end of the year.

Last year Mr. Fitzmaurice was reported engaged to Florence Vidler. He was her devoted admirer for several years and Miss Kane's engagement to Edward Dugan, a rich New Yorker, was also rumored at the same time.

Mrs. Kane has appeared with Rose Danville and in several of George Kane's productions released through First National.

Both Mr. Fitzmaurice and Miss Kane are members of the bridal party of Vilma Hay and Fred La Houge. They say their wedding is on number and close friends of both declare their wedding is only a matter of a few weeks.

100,000 LACK WATER IN R. I.

Providence, R. I., June 10.—Over hundred thousand persons in this city, in the city of Central Falls and the town of Cumberland, Rhode Island and a score or more industrial plants were without water for hours today as the result of the bursting of the supply main from the chief source, Diamond Hill reservoir.

Thirsting with a great roar, a large section of main highway at Hunt and High streets in Central Falls, a huge geyser shot into the air. Within half an hour fourteen other smaller geyser had broken through, until in two hours a million gallons of water had flooded the streets to the Blackstone river.

Ninety patients crowded through the hospital in capacity, and thirty-five in Notre Dame Hospital in Central Falls suffered from lack of water.

BARS 'BOOTING
OF LITIGATION'
IN U. S. COURT

Warning that he will not tolerate tactics of some Boston law firms that "successfully boot litigation about in the courts," Referee in Bankruptcy Arthur Black, in Federal Court today, adjourned until Monday a hearing concerning assets of Norman H. White of Brookline.

White, who entered himself and his two Boston concerns, Small, Maynard & Co., publishers, and the Boston Bookbinding Co., in bankruptcy some weeks ago, is named with his wife and son, Norman, Jr., in five petitions filed by White's creditors, charging withhold ing \$12,500 in assets.

The publisher, in filing his bankruptcy schedule, declared his liabilities were \$112,848 and assets \$12,500.

HEARING IS POSTPONED.

Subsequently White was indicted in 27 counts of larceny involving loans alleged to have been obtained from several Suffolk County banks, including the Liberty Trust Company, Exchange Trust Company, State Street Trust Company, Federal National Bank, Old Colony Trust Company, Commercial Trust Company, American Trust Company and Citizens National Bank.

The petitions that were to have been heard today were filed by Trustees Edmund J. Barnard, Lowell A. Mayberry and G. Wallace Tibbatts.

At opening of the hearing on the petitions Martin White, counsel for the trustees, agreed to adjourn to go ahead with his case, but was met with opposition on that point by attorneys for the respondents.

HUNT RECORDS DESTROYED.

"I have two often seen litigation successfully booted about in the courts by large Boston law firms," answered Referee Black, "and I will not tolerate it here."

"I will set this hearing down for Monday and will accept no excuses from respondents' counsel for non-appearance, but will proceed in their absence."

SELLER OF 'DIL'
IS FINED AS
TEST CASE

Acting in the self-imposed role of censor, Judge William Sullivan spent part of the night reading Upton Sinclair's latest volume, "Oil," and then in Suffolk Municipal Court today fined John Gritz of Beverly, book salesman, \$100 for selling improper literature.

Attorneys for Gritz appealed and the matter will go to the Grand Jury as a test case by mutual agreement of both sides.

HUGE ARMY MOBILIZED TO GUARD LINDBERGH

Continued from Page 2

The Virginia Coast. The cruiser was scheduled to pass the Cape at 10:30 this afternoon. Mrs. Lindbergh, a Detroit school teacher, will be awaiting to

Washington the triumphant return of her son to extend to him her heartfelt greeting.

Mrs. Lindbergh's party will be the guests of President and Mrs. Coolidge at the temporary Dupont Circle White House during the aviator's stay in Washington.

Tomorrow as the cruiser slowly steams up Chesapeake Bay and Potomac River another array of aircraft, one of the largest concentrations of flying machines ever gathered in this country, approximately thirty Army, Navy, Commerce and Postoffice Department airplanes, to gether with more than a score of civilian planes, will escort the aviator to the Washington Navy Yard dock, where he will disembark.

The national capital alone is to give America's official welcome to Colonel Lindbergh. It has been decided.

VIRGINIA CUT OUT

Outside of the rear of airplane motors and the familiar hand signals of pilots, the transatlantic flier will receive an welcoming greeting in the form of government officials, diplomats and fellow famous aviators will extend their tributes on his arrival at Washington.

In deference to the wishes of President Coolidge in having the first welcome in Washington, Virginia will not even extend a reception to the flier as Lindbergh comes ashore by boat, although Governor Byrd and hundreds of the State's residents will embark in boats to cruise alongside the Memphis to catch a glimpse of him. Governor Byrd previously had planned to board the Memphis at the Cape.

The dropping of a package of munitions and the Missouri National Guard uniform, with the new spread eagles of a colonel, which he will do for his reception tomorrow, from the dirigible Los Angeles on the Memphis' deck is to be one of

Lindy's Ship Sets Record in Trip Across Atlantic

Washington, June 10 (U.S.N.S.) In bringing home Col. Charles A. Lindbergh, the cruiser Memphis is establishing a new record for warships in crossing the Atlantic, Navy Department said today.

Due off Norfolk at 4 p. m. today, the Memphis will have crossed from Cherbourg in six days, four hours and twenty-five minutes, an average of 22.5 knots an hour. The old record, 18.4 knots, was made by the cruiser Columbia, a coal burner, for a trip from Southampton to Sandy Hook in six days, three hours and forty minutes.

The commercial steamship record is 24.16 knots, held by the Maestri for a New York to Queenstown trip in four days, ten hours and forty-one minutes in 1916.

The most interesting contacts with his homeland today.

But upon landing at the navy yard, at noon tomorrow, if the Memphis adheres to the program, the joyful pilot will receive tributes and tributes of a proud nation, such as never before have been accorded to a private citizen.

Met at the dock by three Cabinet members, Secretary of War Davis, Secretary of the Navy and Postmaster-General. New Colonel Lindbergh will be the center of hundreds of thousands in a parade of soldiers, sailors and marines past the Capitol and along Pennsylvania avenue to the Washington Monument.

There President Coolidge will extend the welcome of the United States to the young hero and pin on his breast the government's highest award for aviation achievement, the first Distinguished Flying Cross ever to be struck off.

The cross was delivered today to Secretary Lova of the War Department.

The cross, hurriedly designed and struck off, was made ready in eight days. In place of the 35 days minimum usually required. The small red, white and blue ribbon on the cross was specially woven on a hand loom and required three days for completion.

The cross is inscribed on the back simply to "Charles A. Lindbergh" and is numbered 1.

The flying cross is but one of

many decorations which will be conferred upon the aviator. The Smithsonian Institution has awarded him the coveted Langley medal, given only the "fourteen of aviation."

The National Geographic Society has conferred the Hubbard medal, the decoration reserved for famous explorers, and the United States Navy will present its Cross of Honor for glorification of the American flag.

A continuous round of honors and recognition then will await the knight of the air for the remainder of his stay in Washington until early Monday morning when he will fly to New York.

Mail for Lindbergh continued to pile up to amuse his hosts today at the Postoffice Department here, and the telegrams coming in thousands from friends and admirers in one plane leaving Hialeah, Fla., New Brunswick, N. J. 1,500 congratulatory letters were sent.

Victims to Washington today came by motor and by rail. Principal railroads in nearby Maryland State put on special trains and cut rates were ordered for travelers from all directions.

FOR FLIGHT TO N. Y.

Although his transatlantic airplane, the Spirit of St. Louis, which is being brought on the Memphis, will be immediately assembled by railway station mechanics upon arrival, Colonel Lindbergh has not yet decided upon the manner in which he will fly this machine to New York.

There has been a suggestion that he may pilot an army amphibian plane so as to land in New York Harbor and thus avoid the danger of the crowds. Another pilot then would fly the Spirit of St. Louis to New York.

Washington, embelished with flags and bunting and pictures of the aviator, the 200,000 population, augmented by more than 100,000 visitors, has turned from its customary annual over spectacles and receptions and become so enthusiastic over welcome to the flier that reception also is considered a mere formality.

Colonel Lindbergh will be surrounded by mounted cavalry and police during the parade and when he reaches the monument the soldiers from the procession will be deployed around the official reception stand which will be the flier and President Coolidge.

American aviators are to play a

chief role in the tribute to the former air mail pilot. Not only will there be the escort of nearly 100 planes on the last leg of his voyage, including the crack Seaford Field pursuit group of twenty-one single-engine fighters, but the Lindbergh will pass through a double line of several hundred slow bird-men, many of whom also have won the highest laurels in flying.

Among these will be Commander Richard E. Byrd, the North Pole flier; Lieutenant Erik Velde and John Harding of the army world flight; Lieutenant Russell Margolin, the dawn-to-dusk transcontinental pilot; Lieutenant Oakley Kelly, coast-to-coast non-stop flier, and Captain Hawthorne Gray, holder of the world's altitude record.

Another person at the dock will be Robert Nungesser, brother of the French ace, who was lost in making a Paris-to-New York flight.

ST. LOUIS TO CLOSE UP SHOP TO WELCOME LINDBY

St. Louis, June 10 (A.P.) In honor of the return home of Colonel Charles A. Lindbergh, June 13 will be declared a municipal holiday and business houses will be ordered to close for the day. Mayor Victor Miller announced today.

Railroad passenger agents anticipate the program will attract 100,000 visitors to St. Louis. Low excursion rates prevail.

LINDY SLEEPS AS FIRST U. S. BOAT SHOWS UP

U. S. R. Memphis, June 10 (A.P.) "Where's Lindy?" was the greeting of a destroyer Humphreys going to a Memphis job when the destroyer's launch came along with the cruiser 40 miles off the Virginia Coast to get a mail call early today.

"Never mind, Sweetie," retorted the Memphis gun. "Never mind, where Lindy is—there's your launch," and the sturdy sailor put the sack over the ship's starboard side.

ORTEIG LAUDS LINDY; BACK TO AWARD PRIZE

New York, June 10 (A. P.)—Raymond Orteig, owner of the \$25,000 prize for the first aviator to fly from New York to Paris, arrived on the Mauretania today. He said nothing in his life had given him so much happiness as the flight of Colonel Charles A. Lindbergh.

By inspiring the flight, Mr. Orteig said, he was satisfied that he had achieved a life-long ambition "to do something big thing."

"No other winner," he said, "would have pleased me more than Lindbergh. He has the tongue of a diplomat. He would have met every situation as easily without advice from any one. He is a real genius type."

Mr. Orteig hurried back to New York to present the \$25,000 check to Col. Lindbergh at a luncheon at the Hotel Biltmore next week. Mr. Orteig is the owner of the hotel.

He described the flight of the Mauretania by the Columbia on its flight from New York to Germany. One of the three ships his lead out and waved, he said.

Orteig is convinced that transatlantic flying is now feasible.

ARMY TO GUARD LINDY IN N. Y.

New York, June 10 (A. P.)—Highly elaborate preparations were made today at Miller Field, Staten Island, to prevent disorder when Colonel Charles A. Lindbergh arrives there Monday from Washington in his "Spirit of St. Louis."

All indications were that the city will yield to the flier's request that he be permitted to pilot his famous plane, instead of using a seaplane and landing in the harbor as originally planned.

Between 500 and 750 soldiers are stationed at the field and about 100 policemen will be on duty to keep back the crowds, which may number several hundred thousands.

"The gates of the field will be thrown open and the public admitted," Colonel James Justice said. "But the crowd must remain behind ropes which will be strung around the entire field. Two sets of ropes will be used, thus forcing an orderly way in which the police will be stationed. Behind the ropes nearest to the spectators soldiers will be placed on guard. No one will be permitted to go on help it to step on the field beyond the ropes."

"I have sent an airplane photograph of the field to Colonel Lindbergh in Washington. This picture shows a small grove in the center of the field. I have asked Colonel Lindbergh, after he has landed, to taxi up to this grove, where he will be put into an automobile and whisked away from the crowd. The Mayor's reception committee may be stationed in this grove."

LINDY'S MOTHER FOILS CROWDS IN CAPITAL

Washington, June 10 (A. P.)—Mrs. Evangeline Lindbergh, mother of the famous flier, broke her rail journey from Detroit to Washington today at Baltimore and will be brought here from that city this afternoon in a White House automobile.

Mrs. Lindbergh will be the guest of Mr. and Mrs. Coolidge at the temporary White House on Dupont Circle.

The President is sending one of his aides to Baltimore to meet Mrs. Lindbergh, who went to a hotel here after leaving the train.

By leaving the train near Baltimore Mrs. Lindbergh disappointed a crowd that had gathered at the Union Station here to catch a glimpse of her.

The Baltimore station where Mrs. Lindbergh left the train is Mount Washington.

Mrs. Lindbergh, the station agent there said, was met by Captain W. A. Palmer of the Pennsylvania railroad police and was driven away in an automobile.

The agent said she arrived alone and walked over to a street car station where she met the officer.

LOS ANGELES TRIP HELD UP

Laurel, N. J., June 10 (A. P.)—Strong wind today held up the flight of the Los Angeles to meet the U. S. S. Memphis, carrying Colonel Charles A. Lindbergh.

The entire force at the naval air station, including civilians, was on duty at the station in the hope that the crowd would abate.

Commander Rosenbald said the dirigible could have started if there was a full ground crew at the station to walk it out. A few months ago 200 marines who made up the ground crew were sent to China and

BETTY ALDEN'S COMMENT ON SOCIETY

St. John's N. E. June 10 (AP).—A major earthquake, which caused considerable damage, was felt here today. Major F. Sibbey County was eager today to renew his air search for the wreckage of the plane which crashed last night. Mining French francophone residents of the area have lost their homes and have lost their homes somewhere near the crash site.

Major Counton of the big mine company, who was in the area, reported that the earthquake caused considerable damage to the mine. The mine is located on the shore of the St. Lawrence river, about 10 miles north of the city. The mine is located on the shore of the St. Lawrence river, about 10 miles north of the city. By Laws of the Chelmsford Society

- 1 It shall always be in order to open liberal quantities of Chelmsford Ginger Ale, Pale Dry or Regular, whenever a quorum of the Society is present.
- 2 Two members shall constitute a quorum.
- 3 Since every jovial person of discerning taste is a Chelmsfordite -- no Mirrors or other Mechanical Device shall be deemed necessary to the establishment of a Quorum.

Note: These brief ordinances suffice to govern the Chelmsford Society.

To supply members with proper information we set down a few important advantages of Chelmsford.

Question
How hard does a bottle of Chelmsford hit the pocketbook?

The big four glass bottle of Chelmsford Pale Dry Costs 25 cents. Average price of 4 glasses of other pale dry ginger ales is 40 cents. You save 15 cents by using Chelmsford. Same kind of figures apply to other sizes and to Chelmsford Regular.

Question
Why can Chelmsford be sold at such a reasonable price?

Because it is delivered direct to retail stores by Chelmsford's own trucks without expensive railroad transportation, middlemen's profits or fancy frills in bottling. You don't have to support the country's glass bottle industry because The Chelmsford Company buys the bottles back from you. The value is put in the Ginger Ale and the saving is passed along to you.

MANY FAVORITES WILL BE in the ring at the Good Riding School where the show goes on, it having far outgrown original quarters on Myopia Hill, the Sanborn estate, and, as the Winchester Hospital benefits, interest is great indeed. Miss Miriam Winslow has entered "Mimi." Miss Constance Greco has "Oh Kay," the lists. Frank B. Hopewell's "Caddies" and "Irma Denmark," Miss Anna Danforth's "Boiling Over," the Bird, blue ribboner "Nellie Morse" and "Chocolate Soldier" and Mrs. Horace Christy timber topper "Cinderella," to mention only a few of the entries.

THOSE DIRECTING THE ALMY fair have arranged a well-rounded day—with luncheon to be served to exhibitors and the general public at the Franklin County Fairgrounds, 5 Mount Vernon street. The Winchester Show promises to feature most acceptably the interlude between the Millwood and the Country Club affairs, and keeps interest high in the event by the prospect of heat. For judges there will be two experts in that line, Robert L. Almy for the saddle horses and Crompton Smith for the hunters and jumpers. First bugle blows in at 10 a. m. and will not count until sundown.

"BON VOYAGE" IS THE PR dominating refrain of every hand these days, as so many of the leisured smart set, pleasantly addicted to the wanderlust, pack up for traveling light and bear down for foreign climes. To spend the Summer abroad, far from the ordinary travel routes, and in well-beloved spots where the tourist is not, is regular routine with many Bostonians. Some sail this week in the annual June exodus which is filling every trans-Atlantic steamer to capacity.

ONE FAMILY OF BOSTON' haute monde departing tomorrow on the France is the D. Cameron Bradley group. The Bradleys might be said to spend good half of their time on the other side so frequent and so casual are their departures. Mr. and Mrs. Bradley with Master Mon-

H. H. OFFICIALS FAVOR HEARST CRIME STUDY

Mover Malcolm R. Nichols, Attorney-General Arthur K. Harding, Health Commissioner Francis M. Jones and a host of other State and city officials in an address to a number of prominent business men at the address of the study of crime and the plans of the American Crime Study Commission.

"A complete and comprehensive study of the subject matter embraced in the plan of Mr. Hearst will be regarded as a profit of ranking," says Mayor Andrew D. Young.

"It is most laudable and highly to be commended."

"The members of the commission who devote their time and energy to this most praiseworthy work are performing a most valuable service which should and will receive the gratitude of all mankind."

Dr. Francis X. Mahoney, Health Commissioner of the City of Boston—The initiative started by Mr. Hearst for a study of crime and its relation to the community is to be commended heartily.

It will at least go a long way in establishing the facts of crime where something may be done to benefit the individual and the community as well as the State.

There is no doubt in my mind but that there is some relation of crime to crime, but where we can differentiate is a matter that must be determined by research and study. A commission such as one that has been organized in Chicago will prove beneficial to mankind.

ARTHUR K. HARDING, Attorney-General of Massachusetts—I have always been strongly in favor of every study or commission that has a tendency to create crime. It is a study of crime with a view not only of crime prevention but of giving the average man the chance of life to which he is entitled.

As the twig is inclined so the tree will grow. Wholesome home conditions and training, good and good environment will start the boys and girls on the right road, from which relatively few of them will stray.

I am also strongly in favor of the suggestion of segregation, not punishment, of the abnormal individual who seems unable to restrain from serious violation of law. Our court processes should be speeded up, to the end that no innocent individual may be improperly detained, and to insure the prompt punishment of serious offenders.

PATRICK H. O'CONNOR, Election Commissioner of the City of Boston—I have nothing but praise for the commission investigating crime and its remedy, and also for Mr. Hearst, whose editorial led to the formation of such a body.

There is no doubt but that in the course of time the commission will arrive at some decision or plan outlined along the line suggested by Mr. Hearst to correct the present day situation.

Liquor, drugs and lack of religious training in homes are in my mind the greatest causes of crime. Lack of moral instruction on the part of parents as well as another factor.

Non-employment has to some extent a great deal to do with crime. Mr. Hearst has a constructive plan which if followed will have a far reaching effect on the suppression of crime.

JAMES F. EGAN, Election Commissioner of the City of Boston—The crime wave of the past few years has shown such an increase that the appointment of a commission to study its further increase is no doubt the best solution of this great social problem.

The long sentences meted out by the courts have not shown with such telling effect as was expected. These modern day criminals have no fear of the outcome of their acts.

Great praise and encouragement should be given to the characters of voters of Boston who are to sit as jurors in Suffolk County, and they have just completed a survey of 8,000 persons to determine their fitness as jurors.

City Councilor Michael J. Ward of Roxbury—The constructive plan of William Randolph Hearst for the suppression of crime and its cure, placed before the commission organized to study this great social problem, is a plan with the approval of everyone.

It is of course a most complex problem and will require intensive study. The man who is the ideal mental factor, the victory of crime is within sight, however.

Mr. Hearst, and his papers throughout the country, are deserving of great praise for their efforts to purify this social question.

Daniel J. Harbo, New England manager of the Hamburg American and United American Steamship Lines—Crime, like infectious disease, is the vital of the country's young manhood, can be remedied, and will be remedied when more public-spirited citizens of Mr. Hearst's type follow his lead to a solution of the big problem.

Delinquents in many instances seem to have failed. Finding the crime before we are able to put up with the effect is one of the strongest points in Mr. Hearst's plan.

I don't wonder that eminent jurists and others throughout the country have followed his lead in attempting to fathom one of America's bigger problems.

The plan of Mr. Hearst for the cure of crime was highly endorsed by Rev. E. Valentine Root, executive secretary of Massachusetts Fed-

eration of Churches. He said: "I was favorably impressed by the four conclusions of Mr. Hearst regarding cure for crime."

I agree first that capital punishment should be abolished. Having lived for 14 years in the State of Rhode Island which has taken this step I feel that the abolition of the death penalty is safe and desirable. There is no increase of murder, convictions are easier to secure and justice is more prompt. The irretrievable error of taking human life is inadvisable, even for the State.

Second—Society certainly must be protected from the insane and abnormal and this, as Mr. Hearst says, can and should be done without question or effort of retaliation.

Third—I agree that intelligent study of the causes of crime and conditions which create it should be made, that the young in crime should not be confined with hardened criminals, and that education, physical, mental, moral and spiritual, is the only real cure, but this is a complicated and tremendous task.

THE STRANGE HOOPADIL

101 RANCH HOOPADIL

CAN YOU UNSCRAMBLE HIM?

"Jeanie," the baby elephant of the 101 Ranch Wild West herd, dreamed that she and five other animals (all of different species) became "scrambled." For instance, she had her own head and forelegs, another animal's body and a third animal's hind legs. Six outline pictures will be printed of six such "scrambled" animals. Children participating the parts of the six pictures properly together; that is, as the animals appear in real life, will be given tickets to the 101 Ranch show.

Well, then Monday the 101 Ranch Wild West show and the 101 Ranch Wild West show and the 101 Ranch Wild West show.

Boys and girls in other New England towns may also get tickets to the 101 Ranch show.

Four thousand tickets will be given away.

Martha Jane's sandwiches delight thousands ---and every one contains

Howard's Mayonnaise

Mrs. Martha J. Bourne, better known as "Martha Jane," is one of the most skillful sandwich experts in Greater Boston. For years she has been supplying a very particular class of customers with fresh, tasty sandwiches—many thousands of them each week.

The filling of every sandwich contains Howard's Mayonnaise with other delicacies blended according to Martha Jane's own recipes.

It would be difficult to find more discriminating food buyers than schools of physical education. The Sargent School, the Leslie Normal School, the Posse Nissen School and the Harvard Summer School all demand Martha Jane's sandwiches for their classes in physical education.

Martha Jane could, of course, substitute other mayonnaise for Howard's, and still have delectable sandwiches. But her customers, and her own standards of quality, demand the best.

Patrons tell her that they did not care for mayonnaise until they tasted Howard's in her sandwiches. Now they are using it in their homes.

Howard's is different—quite unlike ordinary salad dressing. It has that "something"—that indescribable piquancy of taste that lifts a salad—an entree—a sandwich filling—above the commonplace, and makes it perfect. No sticky, oily taste—just cool, invigorating goodness that brings out the full delicacy of any dish with which a mayonnaise is appropriate.

Even those who have to use care in their diet may eat Howard's freely—for it contains no sugar.

This delightful mayonnaise is blended in spotless, sunlit kitchens—then vacuum-packed and double sealed in sturdy, wide-mouthed bottles—so constructed that they will not easily tip over in the ice chest or on the table.

Gentlemen:
Owing to the class of trade we supply, it is absolutely necessary that each sandwich we make be perfectly fresh. And of the best quality ingredients. Although we have tried many salad dressings, from time to time, we now use your mayonnaise in all our sandwich fillings. It contains just enough vinegar flavor and smoothness—and it is not necessary to add anything to Howard's to bring out its full goodness. We never find salad oil on top when we open a jar of your mayonnaise. It stands up wonderfully well—so well, in fact, that we can make up fillings the night before they are used, without the least risk of impaired flavor.
Very truly yours,
Martha J. Bourne

Three of Martha Jane's Prize-Winning Recipes

Campfire Sandwich
One medium sized apple chopped fine. Four Campfire Marshmallows cut in small pieces. 1 cup finely cut celery and cut meat of two walnuts. Mix with Howard's Mayonnaise to the right consistency for use as a sandwich filling.

Western Sandwich
One half-boiled egg, chopped fine. 1/2 cup of ground ham. 1/4 cup of finely chopped onion. 1/4 teaspoon of prepared mustard. Mix with Howard's Mayonnaise and spread.

Turkey Sandwich
One cup of ground cold turkey. 1/2 cup of stuffing. 1/2 cup finely diced celery. Three stuffed olives, chopped. Mix with Howard's Mayonnaise to the right consistency for spreading between slices of bread.

Use Howard's, this week, in your own home. Learn just how good—how appetizing it is. You will find the pint bottle a convenient size—and very economical.

Pension Veteran Policeman
After 33 years in the Somerville police department, Patrolman Frank C. Hogue will be retired by Mayor Curran tonight on a pension of half pay, effective after his vacation, June 25.

BUYERS TOLD TO QUIT BUYING POTATOES

Around over the advancing price of potatoes, both new and old, the C convention on the necessity of life today advised what practically amounts to a ban on the tuber.

When the cause of high prices was natural or artificial, the people, as all eat, consumption, submit to other foods, but only hand-to-mouth if they desire to prevent further price increases and bring about lower prices.

Chairman Charles H. Adams of the convention said today he advised that the convention has called upon the trade for reasons to explain the increase in price.

Buyers are asked to quit buying potatoes at \$1.25 per bushel in Boston and other parts of the country, and to bring 50 cents a bushel.

SACCO LAWYER SEES FULLER

Attorney William G. Thompson, counsel for Sacco and Vanzetti, who are charged with the murder of the chair of the Massachusetts State Police, today called on Governor Fuller to talk over the matter.

Thompson said he believed Governor Fuller was out at lunch when the attorney called. He talked for a time with Secretary Herman M. Brown and then left the State House, saying he would return next week.

With the special investigating committee appointed by the Governor not yet ready to take up its duties, it is believed that Governor Fuller will postpone the case until the committee's report is submitted.

The Governor today spent much of his time looking the attempted robbery by Vanzetti, in the town of Plymouth, for which the railroad was given a long prison sentence.

Chief of Police John A. Ameringo of Plymouth and four other men who were indicted in connection with the robbery were heard by the Governor.

TODAY

Continued from First Page.

When the athlete KNOWS, he can do it.

SOME of the news runs, brief as follows:

Chas. A. Loring who flew the plane will spend \$2,000 on a new airplane.

GORDON FRANK O'LOUGHLIN supporters say he ought to be nominated in 1928.

John Drew has a release and doctors are worried. He is seventy-three years old. He has been a pleasure to many of his friends.

NEW YORK will authorize a new lot of stories high.

A Lindbergh trial in Chicago more than 1,000 feet high, will prove Mayor Thompson's determination to make Chicago first in everything.

A prison doctor says Earl Harrison, carried into the hospital by a stretcher, will not live. He is ill. Christian Science says all his life was a struggle and a long one.

NATHAN STRAUSS has recovered from his illness, and will leave the hospital in two or three days. He is good news to thousands of mothers who own their children's lives to the man.

Ex Yale Professor Says Hoboes Can Make \$12 Daily

New Britain, Ct., June 10. A story can be made from \$12 to \$13 a day, in the opinion of Professor W. B. Bailey, formerly of Yale who "hoboes" three summers and then for years conducted "hoboes' lodging houses."

"Thanks to the American home wife, the easiest thing a tramp has to do is to get a job in the kitchen of a hotel or in the office of a business man," he said.

He might be wrong. That is, he will create the only life that counts—the life that is THOUGHT, not MATH.

PATENT POCKETS for bathing suits will keep matches and lipsticks dry. That will interest thousands not at all interested in "artificial crease lines."

Great Britain will try a 1,000 mile air hop, from New York to Asia. Lindbergh, Chamberlain and Levine have started things.

Reporters will fly out 100 miles to meet Lindbergh, look at him standing on the deck, then fly back ahead of the Memphis, and look at Lindbergh look and what he seemed to be thinking.

FIELD MARSHAL HAIN says Great Britain really won the war, and could have won it with the help of the United States.

That won't hurt Louis Brandeis. If he fronts a new one, it will likely pay back the money he borrowed. Haines says that Brandeis was the only one to use in a Pools Paradise.

*Texaco Motor Oil F
is a double duty oil
lubricating both the
engine and
transmission*

Why your Ford must have a double-duty oil

In one important respect, the Ford car differs from all other automobiles. Its engine and transmission are combined in one housing—they are lubricated by one and the same oil.

This feature of the Ford car demands a special motor oil—one which will do two things. It must—

First—have the body and purity to keep down engine wear and stand high temperatures. This it must do without forming carbon or gummy residues in the cylinders.

And second—it must lubricate

and freely penetrate the transmission linings. It must keep them pliable, and prevent the glazing and wearing of the surfaces which cause chattering and vibration.

Texaco Motor Oil F has these two qualities. Use it and you will immediately notice an improvement in the smoothness of your car as you start, stop or reverse. And later on you will enjoy an entirely new freedom from wear and carbon.

Start fresh with a filling of Texaco Motor Oil F. You will be agreeably surprised by the results.

Buy Your Oil
with Your Eye Open

See the golden color as it pours

Many motorists do no more when buying oil than drive up and say "two quarts." Some go a step further and buy their oil by name. But the motorist who wants Texaco, and knows why he wants it, goes still further and proves that the oil he gets is the oil he pays for. He identifies it by the clean, clear, golden color of Texaco Motor Oil which is as distinctive and easily recognizable as the trade-mark on a sealed can.

See the golden color in the Texaco Comparator. Watch the golden stream as it pours. From then on—so long as you continue to buy golden Texaco—your engine will be free from carbon troubles and excessive wear. Consult the Texaco Lubrication Chart for the right grade to use.

HURWITZ WIN GOLF MATCH

Defeat Quaker Team 8 to 7 at Belmont Openings; Play New York in Finals Tomorrow

By BILL GRIMES
Coming from behind after trailing 4 to 1, the Boston inter-city team defeated Philadelphia, 8 to 7, in the second round of the Griscum Cup series today at the Belmont Springs Country Club.

With the exception of Miss Gloria Collett, the five leading players for Boston lost their matches. Mrs. Baker, Miss Harbottle, Mrs. Dyer and Miss Gordon losing to Mrs. Hurd, Mrs. Vanderbeck, Miss Perry and Miss Quier, respectively. Miss Hurd and Mrs. Warner put Boston back in the running, but they fell back a point when Miss Ellison was defeated by Mrs. Butler. With the score 5 to 2 against Boston came through with a consecutive victory, which gave her a win despite the fact that Miss Warner and Mrs. Butler lost their matches. The former took up Mrs. Richard Norton to the 2nd hole before a decision was reached. Most of the good golf played today was performed by Mrs. Butler, who won down on the 1st, 2nd, 3rd and 4th holes, while Mrs. Norton, who came off their games, who some of the better light gave wonderful exhibitions.

BOSTON HOLDS CUP

By Boston inter-city team, who is the defending champion, will meet the Philadelphia team tomorrow morning.

Sox Close Series with Slugging Tigers Today

By NICK HATLEY

GEORGE MORIARITY and the Tigers conclude their engagement at the Fenway this afternoon, and make way for Dan Howley's Boston debut as a manager. George and his Tigers haven't been doing so well, but they seem to be coming now. The Detroiters have picked off two games out of three here, and almost snuffed the other one.

They are showing a fine ninth-inning spirit, and even though lack has been with them, the fact that they are hauling shows that the club still is O. K. It was reported from Detroit that disunion had been loose, but that story, after down, produced evidence that man was George, created the player from being late for practice, and threatened a fine.

The Tigers carry too many guns for the Red Sox, who have been forced to shift their policy around almost daily, because of minor injuries and a chronic Bill Rogers who is paying second while Jack Russell is recovering from his planned throat, happened to be the goal in the third inning.

New York, which team defeated the hole with a 5 in a game picked up the lead after a difficult inning in the final round tomorrow morning. In the first round, the Tigers were 1-0, and the Sox were 0-1. In the second round, the Tigers were 2-0, and the Sox were 0-2. In the third round, the Tigers were 3-0, and the Sox were 0-3. Science Takes Out the "Guess"

ONE little size stick, and the privilege of making a LARGE NUMBER of GUESSES is the only equipment furnished the average shoe clerk. If his guess is wrong by the slightest fraction of an inch, you have to go through the torture of "breaking in" a new pair of shoes.

Is it any wonder that frequently your shoes are too long or too short, too wide or too narrow, or the left is all right and the right is all wrong?

When you stand up in this new Resco Twin-Foot Fitting Machine it automatically and accurately measures the length and width of BOTH feet at the same time.

The delicate mechanism is scientifically adjusted to measure the foot expansion and register the length and width of the shoe required to properly fit both stocking feet when the "standing weight" is placed on the sensitive springs.

Adopted by the U. S. Government and used exclusively in all Regal Stores.

CHANGES IN HARVARD CREWS

Coch Brown Shifts Bow Fours; Varsity Same as Faced Cornell; Freshmen on Hand

Red Top, Ct., June 10—Contrary to expectations, Coach Ed Brown has already made several changes in his first and second Harvard varsity crews and the shifts are likely to stand for the Yale race.

The bow fours of each crew have been interchanged so that now for the first time there is a definite varsity and junior varsity crew. The line up of the varsity is the same as it was against Cornell. This will probably be the case in the Yale race, although it is possible that there may possibly be one more change.

The freshmen arrived and had a short spin on the Thames. The boys up as the time it was found that Cambridge was a place at which the latter was desired in connection with an examination. The crew was also invited for the first time to the rowing regatta on the Thames which will be held on the 17th of the month in place of Rowing.

The lineups of the crews are as follows: Varsity—Bow, Amer.; Freshman—2, Ladd; 3, Sullivan; 4, Platte; 5, Clark; 6, Murchie; stroke, Watt; cox, Sullivan.

Junior varsity—Bow, Lawrence; 2, Riley; 3, Harrod; 4, Olmstead; 5, Farnett; 6, Hubbard; 7, Harrod; stroke, Norton; cox, Plummer. Freshmen—Bow, Ladd; 2, Barker; 3, Comstock; 4, Mason; 5, Taylor; 6, Brownell; 7, Farrier; stroke, O'Neil; cox, Miller.

Combination—Bow, Dunlop; 2, Roosevelt; 3, Bawle; 4, Bull; 5, Harrod; 6, Kneel; 7, Hanley; stroke, Brown; cox, Blinn.

Brown took a two Harvard rowers out individually and gave them practice runs as far as the mile and a half mark and gave water was smooth and the coach devised most of the time to have the crew pulled in short strokes while he entered the individual work of the men. The only change in the lineup was that Water returned as cox and point. Captain Platte's boat, while Norton set the best for the other crew, then a head did much the same in the last mile.

Later in the day the two crews met up to the start of the course and went to the shore and to the line at a stroke of 3. The line for Norton's crew was to monitor and 2 seconds. Water's boat lost by five lengths. It was the first time that the White-stroke crew has been defeated in the last week.

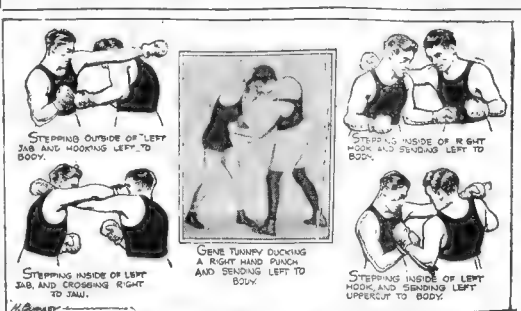

Coch Leader Takes Exam With Oarsmen

Exam Perry, Ct., June 10—Coach Ed Brown of Yale and his varsity and junior varsity crews down stream for a trial run. At the three mile mark the junior varsity returned to the boat house but the varsity continued on for another mile.

The combination crew practiced varying starts and the freshmen had a long row from the boat house to the bridge.

Coach Ed Brown joined the members of his in the evening rowing race took the test in Rowing on Monday, he took the examination in economics.

CORRECT WAY TO AVOID PUNCHES

HOW TO BOX By GENE TUNNEY World's Heavyweight Champion

BOXING involves two basic principles:
(1) Protect yourself from being hit.
(2) Hit the other fellow.

The most important thing of all, of course, is to protect yourself from the blows of the other man. For if you do not do this, it matters but little how accurate a puncher you may be or how hard you can hit, you cannot expect to win a fight.

It is a common mistake to think that a boxer should stand in front of his opponent and throw punches. This is a sure way to get hit. The correct way is to stand in a crouch, with your feet wide apart and your hands up to protect your face. When you want to throw a punch, you step forward with your lead foot and throw the punch with your rear foot. This way you are always protected from the front.

In boxing, the big thing to remember is to keep your eyes on your opponent. If you look down at your feet or at your hands, you will get hit. Always keep your eyes on your opponent and you will be able to see his punches coming.

Acclaimed by the Public as the Ideal Clothing Value

HERE is always some paramount reason for the success of some commodity. The fact that Franklin Clothes is successful is self evident for we have built a tremendous following of satisfied customers.

And today the enthusiasm of the wearers of Franklin Clothes is the marvel of old time clothing institutions. Rest assured this success is by no means an accident. It is only through our willingness to give the public the greatest clothes value for the least possible price at all times.

Jim to Stay in Ring Wise Decision
Few Can Lick Him
By Nick Flatley

MALONEY SMART TO STICK TO RING GAME

JIM MALONEY, wise young man, signs up for a couple of fights. He is not going to quit merely because he was beaten by Jack Sharkey over in New York. Jim has picked up one fortune in the ring, and can easily gather another without letting himself in for any great amount of punishment.

There are not many Sharkeys along the heavyweight trail. Young Master Maloney can knock most of the other big boys bowlegged. He will be picking up a lot of loose change, and working himself back toward a big shot. Apart from Tunney and Sharkey, there are no large fighters who figure to lick both Boston James. He will be gathering experience as he goes along. Fighters improve only by fighting. It took years and years for them to become, save in exceptional cases.

Sharkey, consumed by a flaming desire to be a champion, devoted his entire life to gathering the technique. The more pliant Maloney fought for the money. He trained when he had to. He did not stay up nights figuring blows and shifts and things.

He's still young and rugged. When he comes back for another Sharkey bout, he will be an improved fighter. He will not pack the burden of too great popularity. He will have a much better chance than he had in the recent mass in New York. For Sharkey has reached the spot where he cannot box for sake of keeping in trim. He must wait for the big row. Idleness never helped any scrapper. But Jack has enough class to effect several vacations.

their own lack of it. And that they make themselves as pretty as possible with every artifice. And that sometimes they succeed in improving themselves and that sometimes they DON'T.

But the girls who call themselves "plain" do not always know that they are beautiful. That they are so very sweet and bright and wholesome, many times such dear girls, that someone, and usually the someone that matters, thinks them BEAUTIFUL. — NELL BRINKLEY

'Shackled Souls'; Geoffrey Tells Roen He Is Going Away Soon

I'd rather have her like you than like myself . . . but if she likes you, she's going to love me. He'd be selfish . . . to be a little selfish . . . Don't let me say that. Wouldn't it if you did a daughter?

The coming of Jackie's child was an epoch in Rose's life. She thought that she had never known a man twining on hers, felt baby's cheek.

She ached with the longing to hold it, to touch it, to kiss it. It was sheer joy to rush out on a Saturday afternoon and find it for them Virginia and Jackie went for a ride or sometimes to the park. Jackie was so grateful for the times they were able to stay with the baby when they went to dinner.

One day they came home as usual. She had just finished giving it

Hiking Will Bring Much Pep and Loveliness to You

Beauty Hints

Keep Your Lovely Girlish Complexion

If your skin becomes pale and worn, freckles, tanned from exposure to the winds and sun, or even peeling away quickly and easily by using pure mercurised wax. Procure an ounce of any drug store or beauty counter and use according to directions. The wax absorbs the old, dead skin a little at a time until it has all disappeared. After the outer skin has been removed the under skin is young, smooth and satisfactory, with a delicate peach-like bloom. Mercurised wax brings out the hidden beauty of your skin.

Keep Your Lovely Girlish Complexion

If your skin becomes parched, worn, freckled, tanned from exposure to the winds and sun, you can get it away quickly and easily by using pure mercerized wax. Procure an ounce of it from any drug store or beauty counter, and use according to directions. The wax absorbs the old, dead skin a little at a time until it has all disappeared. After the outer skin has been removed, the inner skin is revealed smooth and velvety-soft, with a delicate peach-like bloom. Mercerized wax brings out the hidden beauty of your skin.

For BOSTON: 1—Clean streets.
2—Solution of traffic and parking problems.
3—Better pay for honest public service.
4—An airport SECOND TO NONE.
5—Erection of a MUNICIPAL AUDITORIUM to compare with any in the land; in order that Boston, properly supplied with first-class hotels, may be the premier convention city of the U. S. A.

For NEW ENGLAND: 1—Weld the six States into a unit through the activities of the New England Council, thus creating a community consciousness.
2—Promote intercourse with Central and South America, encouraging New Englanders to "turn to the sea" again.

3—Keeping everlastingly at the job of telling the rest of the country all about our unique advantages as Summer and Winter Playground of the Nation.
4—Foster the prosperity of our industries through (1) greater efficiency in production and (2) the use of modern methods in merchandising.
5—Promote in every way such natural resources as forests, water powers and fisheries.
6—Assist New England agriculture to better marketing methods.

They Are Learning

China Might Soon Teach US Something About War

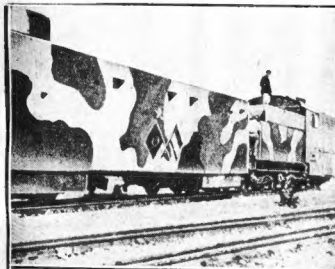

A CHINESE FIGHTING AIRPLANE.

In these two pictures of the Chinese in their war against each other, North fighting South, Chinese Communists taught by Russia fighting Chinese conservatives, you see that China, although she hasn't much money, is at least WILLING TO LEARN how modern fighting is done.

The picture at the top shows a Chinese fighting plane, the man sitting in the rear holding an aerial torpedo, arranged like a little boy's arrow, to make it go straight.

While the pilot in front guides his flying machine above the enemy, the "observer" uses his torpedoes to the best advantage.

The other picture shows a Chinese war train, protected by steel armor, camouflaged in a way made familiar to us on ships and trains during the big war. China has more than

A CAMOUFLAGED CHINESE WAR TRAIN.

400,000,000 inhabitants, very likely nearer 600,000,000, since old men and children, too young to be taxed, are not included in the census.

China could raise if necessary, \$2,000,000 fighting men. If the Chinese now fighting each other should learn thoroughly the use of modern airplanes and long-distance flying, they might with their fearlessness and contempt for death make things interesting for this rich and backward nation, in case we gave them cause for offense.

Some day the Russians, recovering rapidly from the effects of war, increasing their wealth and building up their fighting machinery, might lead an Asiatic flying army through the air in our direction. That would make us do some serious thinking.

Princely Governor

New Hampshire's

Huntley Novel Spaulding's present of a \$100,000 gymnasium to the Normal School at Keene, magnificent as it is, probably is of no more real value than the time and thought and energy the Governor had already given to the educational system of the Granite State in six years of service as chairman of the State Board of Education.

The Governor is looking forward to the time when New Hampshire shall have a professionally trained teaching force, a goal toward which substantial advances are being made.

Giving to the young men and young women of the State who are being prepared for work in its class rooms, he is actually the benefactor of New Hampshire boys and girls for many years to come.

Fortunate the State with such a public-spirited and open-handed chief executive! Happy New Hampshire! Lucky Keene!

Nothing Is Sure

Mellet's Killers Know It, NOW

Floyd Streitenberger, policeman and gangster, of Canton, Ohio, picked out the day, July 18, on which D. R. Mellett, the Canton editor, was murdered, because a sham battle in a park "would distract attention from the noise when Mellett was shot down."

Streitenberger now goes to jail for life. Patrick McDermott and Ben Kadner are also imprisoned for life for the same murder.

Streitenberger arranged the "get away" and promised police protection. He now knows that you never can be sure.

LISTEN WORLD!

By ELSIE ROBINSON

"A NOTHER Elsie" wants me to write an article on "Listen World!"

"We so often have to contend with snail and tortoise walking in our midst," she writes, "how should one meet such action? Do you think it is fair to other people or to ourselves to show the world anything but our real selves? Or should we for politeness sake offer a superficial sweetness that is far from our real feelings?"

Dear other Elsie—I suppose I should take my stand firmly for the Truth and Nothing But the Truth in all social intercourse. And I suspect that I'll be soundly criticized for not doing so. But if you really want to know what I honestly feel, please hear it.

The last thing I want to associate with is a Real Self—my own or my neighbor's.

Real Selves

In theory our Real Selves are wise, gracious spirits. In practice, they're usually anything but. No, I'm not about to preach the doctrine of original sin.

I do not think that we are fundamentally evil.

But I do think that we are fundamentally rough necks.

If we all went around showing what we really feel one-half of us would be in jail by nightfall and the other half would be in the morgue.

It's lovely to theorize about the Naked Truth. But most of the Naked Truth I've met up with had bow legs and big noses.

I don't want my Truth naked. I want it covered up with a lot of nice, soft, pleasing clothes and a good make-up.

No, I'm not advocating deceit and immorality, sister.

But I am advocating civilization. Civilization is a process of putting paste on savages.

He's Boorish

Not the savages in Africa or India, but the savage in each one of us; the greedy, stupid, cruel, cowardly, suspicious, egotistical primitive man that lurks in the shadowy depths of all our beings. That primitive man isn't bad, but he's boorish. Neither his morals nor his mentality are 100 per cent and, as a consequence, it is both exasperating and tiresome to have him show his Real Self or expose his Real Feelings.

So civilization covers him up and makes certain conventions whereby his demonstrations are kept within bounds.

Civilization covers him up with humor and tact, politeness and the blessed frippery of "small talk."

You say it's insincere, my dear. Well—so are pants.

RHYMING OPTIMIST

By ALINE MICHAELIS

HOW, with magic of Springtime it wakes again, the beautiful heart of youth, to a world fresh-shriven with April rain, under winds that are sweet as truth! Oh, the brave, glad visions that all return with the grace of this freshening green. Oh, the fragrant incense of hopes that turn through those hours of Spring's magic hours! How it all comes back like the glow of dawn, this love we have had, while, this glow of youth which we thought was gone, how it comes with the Springtime's smile! Though the gates of time bar our own bright youth, now a banner forever furled, how we thrill to the radiant, true, in the truth, in the youth of the waking world!

HELPS FOR YOUTHS AT COLLEGES

By DR. FRANK CRANE

THE managing editor of a college paper has requested me to give some points for college men.

There follows herewith a brief synopsis of what I gave him. Giving advice is about the best thing I do. It doesn't cost anything and usually nobody takes it and so there is no harm done.

The first thing for a college boy to keep in mind is why he has come to college at all. It behooves him to keep his eye on the ball, as the saying is.

He is in college to improve his mind. Of course it is all right to engage in sports and a reasonable amount of recreation is a help to one's mental efficiency. So salt is good and a little of it flavors the meat. But when you have too much salt you can't eat the food. A little recreation is good, but when there is too much the mess is spoiled.

Do not be a sissy or a shark, but maintain your balance and keep your eye on the ball.

Outdoor recreations are the best kind. Outdoors is the best guarantee of sanity and preventive of morbidity.

A habit of frankness should be cultivated. Don't shift. Don't invent alibis or excuses. Don't be afraid to say, I don't know. Don't get a grudge against some professor and think he is trying to railroad you to failure.

Of course there are bad teachers and tyrannical professors, but the best way to meet them is to take their snubs gracefully and hob up serenely, smiling. A grudge gets you nowhere.

Avoid egotism. Look about you. Most of the people you don't like are disagreeable because of their egotism. Don't think more highly of yourself than you ought to think.

BOSTON DAY BY DAY

FIRE.

FRANK REYNOLDS, police chief at Mill and Nantasket, isn't a fireman, but he understands that particular business fairly well. This is proved by recalling the configuration of the beach some four years ago. CHIEF REYNOLDS' house stood directly in the path of the flames. With a garden hose, he poured water over his building, and while dwellings all around burned to the ground his house was saved. After the fire it stood alone on the hill, the only structure saved in the path of the disastrous blaze.

UNASSUMING.

CHIEF "BULLY" WELCH of the MEDFORD police rarely wears a uniform, though he insists that the men under him keep theirs spick and span and has the appearance of a prosperous business man when he appears on the witness stand to testify in cases where judgment is needed in deciding the fate of a defendant charged with a serious offense. He makes an admirable witness.

ARTIFAN.

MORRIS, TEX. RICHARD, TOM GOODWIN and others may soon find in their offices a man who will give them a real fire in his eye. The gentleman is none other than "BOB" REYNOLDS, manager of the "Red" team.

NOW A FARMER.

THOMAS W. HAYES of WESTON, motorcycle copper of only a few short months ago and the terror of law-breaking motorists, has turned to the simple life and now operates a farm in his home town. Incidentally, TOM is soon to take unto himself a wife. Perhaps that real fire in his eye and his determination to settle down and become a farmer.
